## New Contractor for Lamorinda School Bus Program

By Jean Follmer

In addition to the financial benefits of the First Student contract, Hansen says the new buses will be more environmentally friendly than the current buses and will be equipped with seatbelts. "The new clean diesel buses will meet the new 2007 emissions requirements and actually burn cleaner than our older model 1996 CNG buses," explains Hansen, adding that the newer CNG buses are both cost prohibitive and don't burn significantly cleaner than clean diesel buses do.
