Welcome to a new school year! Moraga Education Foundation (MEF) thanks the community for the \$1,400,398 they generously donated for the 2010-2011 year. Donations surpassed the \$1.3 million goal and allow MEF to fund 2.67 teaching positions, 100% of the Moraga School District's music, physical education, art, and library programs, the "Z" period/elective program at Joaquin Moraga Middle School, and more than a third of the Moraga School District's technology budget. As a result of Measure A passing, MEF donations will afford Campolindo students with: a return to smaller class sizes in ninth grade English and math; ongoing curriculum support for a broad range of electives; additional counseling, intervention, and tutoring services; staff training for Advanced Placement and Science teachers; and technology support.
