

Rainfall Update—A Cloudy Picture

... continued from page D3

He then bought an electronic rain gauge and found the rainfall readings were about 20% lower than those of the glass tube. Like the good scientist that he is, he purchased a second electronic weather gauge to confirm his results, and it produced rain numbers almost identical to his first electronic gauge and much closer to

Orinda's official rainfall reports.

Gottfried's Conclusion: If your rainfall measurements are consistently much higher (or lower) than the official results, your rain gauge, not your location, may be responsible.
