Winter Pruning

Winter is the best time to start pruning deciduous plants and trees, such as maples, shrubs, roses, most fruit trees and most of all your Monterey pines. They go dormant in the winter and some lose their leaves. Deciduous plants are best pruned in the winter because that's when they're dormant and less prone to disease.

Before you start hacking away at your yard, you may want to call in a professional Arborist from Advance Tree Service to give you their advice on what should be done, the proper handling during pruning is essential to ensure a healthy future for your trees and shrubs.

So don't wait until it's too late, call your local Arborist at Advance Tree Service and Landscaping to help make your yard its very best.

DON'T JUST TAKE OUR WORD FOR IT...

"Ron and Susan are truly exceptional agents and they make a great team... truly value added partners in the real estate process. They are extremely responsive at all hours of the day. They provided sound, thoughtful advice... and weren't simply trying to earn a fee. They were extremely smart and detailed in guiding us through every step of the real estate process. And, their knowledge of the local markets -- what drives real estate value and how to execute a negotiation was exceptional. I can't say enough good things about them... best agents in Lamorinda hands down!"
