### IT'S THAT TIME OF YEAR

Time to Prune - Proper pruning is essential in developing a tree with a strong structure and desirable form. Trees that receive the appropriate pruning measures while they are young will require little corrective pruning when they mature.

Proper technique is essential. Each cut has the potential to change the growth of the tree.

Poor pruning can cause damage that lasts for the life of the tree.

So don't wait until it's too late, have a complete inspection by a Certified Arborist at Advance Tree Service and Landscaping.
