

Add lantana to cascade over a retaining wall to soften the pathway.

- **FILL** gaps in your landscape with autumn flowering plants including colorful chrysanthemums, pansies, and asters.
- **ADD** clover to lawns to supply nutrients to the soil, help with water retention, resist damage from pet urine, and fix the nitrogen needs. Clover remains green even when grass turns brown. As an added bonus, pretty pinkish white flowers poke through the drought tolerant foliage.

School is back in session. Drive carefully. Enjoy the final days of exuberant blooming flowers as summer fades into autumn and the trees begin their wardrobe change.

Happy gardening and happy growing!

There is nothing tastier than tomatoes straight off the vine.
