

*Petunias and succulents are flattering together in a rock garden.*

*Oregon Grape is an excellent deer-proof shrub in the landscape.*

The wild look of this new garden fashion will be of interest to those of us who are harried, hurried or interested in embracing a more natural, environmentally sustainable garden. Colors are whatever thrives, plantings are in drifts, maintenance is low, hardscapes are minimal, earthy-born or recycled elements, and the result is lush, overgrown and messy, yet beautiful. Seems like a great fit for these crazy, hectic times.

Grab your gloves, shears, shovel and a bucket. We have work to do outside before the play days begin. And we all look forward to the amusements of the season!
