Twelve local landscapers were recently honored with beautification awards “for excellence in landscape installation and maintenance,” said the East Bay chapter of the California Landscape Contractors Association. A total of 25 awards were presented in 15 categories culled from 42 entries, encompassing residential and commercial landscape construction, maintenance and renovation, water features, outdoor lighting and water-saving, California-friendly landscaping contractors. Seven awards went to projects completed in Lamorinda. In Lafayette Roxy Designs won an award for a “new normal”

landscape, as did Calvin Craig Landscaping (outdoor living and hillside restoration category), Lazar Landscape Design & Construction, and Garden Lights. Terra Landscape was recognized for both small commercial installation and large commercial maintenance in Moraga. Lazar Landscape picked up a second award for an Orinda project, as did Garden Lights. California Landscape Contractors’ Association is a nonprofit, statewide trade association of licensed landscape and specialty contractors. The East Bay chapter has approximately 91 regular members.

## RISK ASSESSMENT

Some level of risk must be accepted to experience the benefits that the tree provides. Fortunately, tree failure is an infrequent occurrence. Serious damage, injury, or death from tree failure is rare. Tree failures during normal weather conditions are sometimes predictable and preventable. Decisions on whether a tree inspection is required or what level of assessment is appropriate should be made by an arborist with the consideration for what is a reasonable and proportional to the specific condition and situations. Have an arborist from Advance Tree Service take the risk away by assessing your trees health today. So don't wait until it's too late, call your local Arborist at Advance Tree Service and Landscaping to help you assess your risk today.
