

Feng Shui

Let there be light

... continued from page D6

Here are some tips for good Feng Shui lighting:

- The front entrance and front walkway lighting must be first, safe and might also be low-voltage landscape lighting;
- Master bedrooms require 100-watt bedside reading lights;
- Kitchens should be functional with plenty of overhead lighting, under cabinets and low lighting for evening access;
- Crystal chandeliers enhance certain bathroom placements;
- Install modern floor lamps interwoven for design jazz;
- Patio solar lighting is glamorous fun;
- Soy essential oil candles always set the mood after dark.

When lighting encourages a cozy “hygge” reading nook, a safe food prep spot on your kitchen counter or an ease of entry with a sublime entryway, then you know that your lighting is supporting all aspects of your vibrantly designed life.
