Reassessing the inner spiritual values of individuals and society at large and consciously integrating “higher-self” values into daily life, will create a spiritual reservoir for many to rely upon in 2018. Dog year will awaken our intuition and deep moral sense and the human values of honesty, integrity, loyalty and generosity will be the values that lead to a successful path under 2018 Dog’s watchful eye.

Earth Dog is endowed with some of the finest qualities of all the Chinese Zodiac animals, including overall success at enterprises, generosity, kindness and caring for others. The 2018 Earth Dog year includes a sensitive sense of justice, the rule of law or the sense of right and wrong and balanced support for the underdog. Quiet Dog persuasion and diplomacy will take center stage and those wanting success in 2018 would do well to follow this lead by applying generosity, kindness and patience in all business matters. Finding life’s higher purpose, lending a sincere helping hand, generously reaching out to others less fortunate, will also be richly rewarded in the 2018 Dog year.

Many voices around the world will also rise to highlight the importance of universal values of dialogue and solidarity, and individual demagoguery will be rejected by the majority. There will be an increase in social awareness and interest in the socially less powerful members of our society, efforts that are aimed at creating a more fair society for all will have wings. Any tendencies to take will be replaced by widespread sentiments of generosity and selflessness, a sense of fair play and honoring commitments. Principles and dignity will be front and center and frivolity and superficiality will not find much support during Dog year. Controversial issues are given their scrutiny and due, revolutions are successful, politics are liberal, and political oppression is opposed usually in Dog years.

The 2018 Earth Dog will require more seriousness in business, a hard working approach and

being responsible for greatest success. Dog years are not supportive of waste and unnecessary expenses. This is a great year to start a new business venture, provided the Dog year values are adhered to and integrated into your business plan. If you are investing in Dog year it is advised to seek professional guidance and help. Companies that equitably share success and resources will be most rewarded in 2018 Dog year, as well as those who are practicing sound environmental policies such as implementing solar and wind technologies. Companies investing in the welfare and health of their workers and consumers through increased investment in recycling and renewable energy will be rewarded with increased revenues in 2018.

From a personal health perspective it’s a great year to create more balance in our personal care, and avoiding the truly unhealthy. Many will find the consciousness to quit smoking or dramatically increase exercise commitments or refocus on diet improvements. We will be able to be far more consistent with any health changes we decide to make in 2018 Dog year. Borrowing from Dog’s well-documented intelligence our creativity is at its height as we forge new paths for a truly balanced lifestyle.
