company.

Philz Coffee specializes in pour over coffee made one cup at a time. Philz Marketing Communications Manager Jolie Meschi explains, "We do any cream and sugar you'd like for you. That means your coffee is not only fresh but made just the way you like it. While you won't find any espresso drinks on our menu, our team is well versed in recommendations that will satisfy any espresso or latte drinkers. Each of our blends was specially crafted by Phil himself, so they are unique to Philz."

And, reflecting the company's values, Meschi adds, "While the coffee is great, we really pride ourselves on service and the atmosphere we strive to create in the store. Come for the coffee, stay for the people."

Meschi says that the store will be staffed by a handful of team members coming from other Philz locations and that they've also done some new hiring. "The store is currently staffed, but we always accept applications," she says.

Philz Coffee in Lafayette will be open from 5 a.m. to 8 p.m. weekdays and from 6 a.m. to 8 p.m. on weekends. The store has two-hour parking for customers around the back on Dewing Avenue. They also have a mobile app that allows customers to order ahead for quick pick up.
