

# Getting your house in order to welcome in the Year of the Earth or Golden Pig

... continued from Page D1

All of the energetics you wish to be blessed with all year should ideally also be part of what you create inside your heart, and in your surroundings on New Year's Day.

The Yin Earth Element of Pig year is fully balanced by Earth's yin/yang properties so 2019 will feel more stable, natural, and the yin/feminine presents as less serious, and demanding than 2018 Dog year. The more celebratory Pig vibe is a welcomed shift after last year's intensity and seriousness. (To see more about the Earth or Golden Pig year as it relates to our personal lives go to:

Happy New Year!
