Orinda and MOFD conduct a contraflow activation exercise

By Sora O'Doherty

During a test of the contraflow lanes on Miner Rd. on Dec. 2, all right turns onto east-bound Miner Rd. were prohibited by signs that explained the a reverse lane was in effect. Photo Sora O'Doherty

Notifications of the exercise went out to affected residents via the Community Warning System (CWS), Nixle, and Social Media Channels on Saturday morning. Residents were asked to use alternate routes and/or adjust their travel plans to factor in the contraflow exercise.

Residents of the area became familiar with alternative routes when Miner Road was closed for several months in 2017 because a culvert under a bridge collapsed following very heavy winter storms.
